ALTITUDE ALUMINIUM

WORLD LEADING ALUMINIUM WINDOWS AND DOORS

Signature Sliding Door

Its minimalist design uses narrow angled framing to let in plenty of light and improve views of the outdoors. Like the rest of the VELFAC range, it combines a composite wood and aluminium frame for durable, low-maintenance performance with a clean, modern look.

VELFAC Signature Sliding Doors

VELFAC Signature Sliding Doors are constructed from alu. clad wood frames with a low 20mm threshold, and are designed for use in showcase low-rise housing projects.

It features a minimalist design with narrow angled framing, affording an impressive inflow of light and enhancing your view. Sizes are available up to 5.9m wide and 2.7m high (4.78m x 2.5m with PAS24/Part Q compliance), so huge glazed features can be created.

Triple glazing

Energy efficient = 0.88 W/m^{2}K

Rw 40dB **sound reduction** (estimated)

Securit y
PAS 24 / Part Q compliant

Sightlines
147mm opening, 45mm fixed

Wind resistance Class C2
(800Pa or 80mph wind speed - hurricane)

Water tightness 600Pa
(60mph wind speed – violent storm)

5 years **product warranty**
