

KV 440 UPVC/ALUMINIUM WINDOW WITH INTEGRATED BLINDS

PROPERTIES

	Thermal insulation	U_w as low as 0.64 W/(m ² K)
	Sound reduction	up to 45 dB
	Security	RC1N, RC2
	Locking	concealed
	Construction depth	93 mm

I-tec Glazing

I-tec Shading

I-tec Ventilation

I-tec Insulation

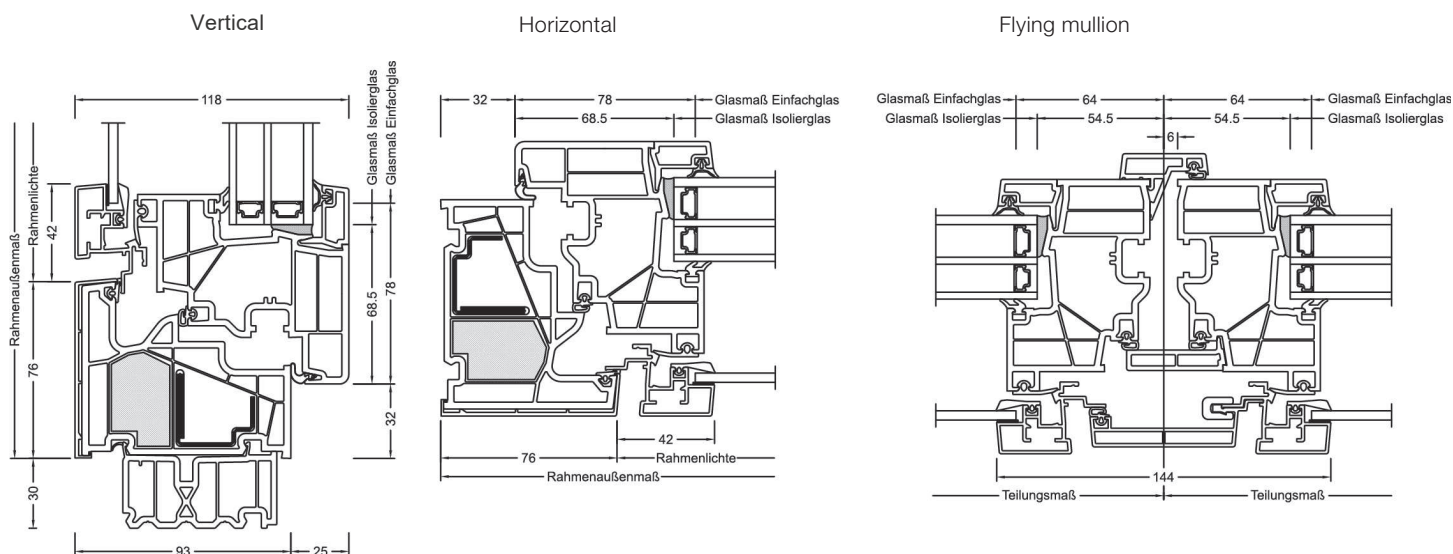

I-tec SmartWindow

KV 440

More light despite sun protection? No contradiction with the KV 440. Sun and privacy protection is already integrated between the glass panes of this flush window. Along with best thermal insulation and sound reduction values we can offer quadruple protection in one window. Next to blinds or Venetian blinds, the opaque Duette® blinds ensure maximum privacy protection. I-tec Shading can be controlled via photovoltaic module, thus requiring no external power source. I-tec Smart Window App enables convenient operation via your tablet or Smartphone.

ECLAZ®

Daylight is crucial for our human organism, our wellbeing and our health. Therefore, Internorm windows are equipped with premium glass coating ECLAZ® as standard. The blue components of the light spectrum are transported through the glass more and ensure up to 10 % more daylight. Compared to conventional market glazing, ECLAZ® is offering:

More aesthetics – colour-neutral outside view, a combination of function and aesthetics

More light – up to 10% more daylight – better for health and wellbeing – a significant advantage especially in the dark winter months*

Visual comfort – for a brilliant view to the outside

Room comfort – makes living areas even lighter and friendlier

Energy efficiency – excellent insulation of interior thus reducing heating costs - increased energy efficiency in building - up to 11 % less CO₂ emissions

* In direct comparison to same glass buildups.
